Made with Re-Milled

# sustainability *at our core*

At its core, **Mona B USA** is a lifestyle brand committed to sustainability. When you shop with Mona B, you're not just buying a product—you're investing in eco-friendly fashion without compromising style. Over the years, the simple idea that sustainable can be stylish has grown into a lifestyle brand that offers a wide variety of eco-friendly, fashionable products. Each season, we innovate new ways to bring high-quality products to our customers while reducing our environmental footprint. Learn more about how we incorporate sustainability in each part of what we do at [MONA-B.COM](http://MONA-B.COM).

*sustainable materials*

3 Using sustainable materials we are able to produce without burdening the environment.

*zero-waste manufacturing*

4 Every inch of waste and excess materials is repurposed for design accents, details, and small constructional components.

*re-duce, re-use & up-cycle*

1 After years of use by the army, covering trucks as tarps and providing shelter as tents, this textile is given new life.

*canvas re-imagined*

2 We innovated a process to break down and reweave the post consumer military canvas into a new, zero-waste fabric. We call it: **Mona B RE-Milled**.

*low-impact packaging*

5 We ship our products using recycled cardboard cartons, conserving the energy and water associated with making new cartons. We will continue our search for the most sustainable way to bring you our merchandise.

*be fearlessly authentic*

6 At Mona B, we believe in progress, not perfection. Our story as a brand is marked by a constant search for new ways to build sustainability into every step of the supply chain.
